

DVT 3.60

ROTARY VANE PRESSURE/VACUUM PUMPS, OIL-FREE

The DVT 3.60 is an oil-free combination pressure/vacuum pump for blast and suction air. It is a rugged and durable pump designed to operate on a continuous duty basis. This dry-running displacement pump utilises self-lubricating, graphite composite vanes and requires only minimal maintenance.

- Built-in, large inlet filter
- Pressure and vacuum regulating valves
- Built-in aftercooler
- Vibration isolators
